

CASESTUDY

Boardroom & Collaboration

Background

Transforming Meeting Rooms into Smart Collaboration Spaces

Client Overview

A corporate office needed to modernize its meeting and boardrooms to support hybrid meetings and global collaboration without delays or tech issues.

Challenge

- Poor AV quality in meetings
- No integration with Teams or Zoom
- Difficulties in scheduling and using meeting spaces

Solution

- Databytes designed and delivered a future-ready AV ecosystem:
- Installed Poly Studio X70 with AI-driven camera tracking
- Integrated Microsoft Teams Rooms and Zoom Rooms
- Setup room automation with scheduling display panels
- Provided user training for smooth adoption

Outcome

- 90% improvement in meeting participation experience
- 70% increase in room utilization
- No support tickets for AV issues post-deployment
- Enhanced client presentation capabilities
